Job Duties and Responsibilities

Job Description

You are responsible for ensuring the alignment of web design and user experience requirements, optimizing web pages for maximum efficiency, and maintaining brand consistency across all web pages, among other duties.

You are required to work in teams alongside back end developers, graphic designers, and user experience designers to ensure all elements of web creation are consistent. This requires excellent communication and interpersonal skills.

Responsibilities:

- Determining the structure and design of web pages.

- Ensuring user experience determines design choices.

- Developing features to enhance the user experience.

- Striking a balance between functional and aesthetic design.

- Ensuring web design is optimized for smartphones.

- Building reusable code for future use.

- Optimizing web pages for maximum speed and scalability.

- Utilizing a variety of markup languages to write web pages.

- Maintaining brand consistency throughout the design.
